Night drives are only permitted in the private conservancies bordering the reserve, not inside the national reserve itself. They use red-filtered spotlights and a guide trained to scan for eyeshine.

Expect genets, servals, bushbabies, aardvark, hyena and occasionally leopard hunting. Lion at night Masai Mara day safari from Nairobi are often inactive, so the draw is the smaller nocturnal species.

Drives usually run after dinner for one to two hours, and some camps include them in the rate. They are not a substitute for dawn game drives. Conservancy **masai mara day trip from nairobi** camps offering night drives are listed at %LINK%.
