What is Big Bass Crash?

At its core, **Big Bass Crash** is a multiplayer-style social game where players put bets and enjoy a multiplier increase in real-time. The goal is basic yet stressful: squander before the action suddenly ends (the "crash").

In this specific version, the conventional rocket or jet chart seen in other crash video games is replaced by a fisherman attracting his catch. As the fisherman pulls harder, the net gets heavier, and the multiplier climbs up. If he successfully transports in the massive catch, the multiplier reaches new heights; if the line snaps, the round ends, and active bets are lost.
