When Evolution Gaming introduced **Crazy Time** in 2020, it didn't simply introduce another video game to the online gambling establishment lobby; it totally redefined what a live dealership video game show could be. What is Crazy Time?

At its core, Crazy Time is a live video game program constructed around a huge, vertically mounted 52-segment wheel. Hosted by an energetic, live speaker, Play Crazy Time Demo the video game occurs in a brightly colored, Willy Wonka-esque studio. The main goal is basic: players put bets on which segment the wheel will stop on.

However, what raises Crazy Time above conventional wheel games like *Dream Catcher* is the **Top Slot**. Above the main wheel sits a two-reel mini slot. On each and every single spin, this slot generates a random multiplier for among the betting sections. If the wheel stops on that section and the reward or payment is activated, the multiplier is used, leading to possibly massive payments.

The Betting Layout and Segment Breakdown

Understanding the game starts with knowing the wheel. The 52 sectors are divided into mathematical bets (1, 2, 5, and 10) and four special bonus offer rounds. Each sector has a various frequency on the wheel, which dictates its payout and overall possibility.

Section Number of Segments on Wheel Base Payout Approximate Probability **1** 21 1:1 40.38% **2** 13 2:1 25.00% **5** 7 5:1 13.46% **10** 4 10:1 7.69% **Coin Flip** 4 Perk Game 7.69% **Cash Hunt** 2 Bonus offer Game 3.85% **Pachinko** 2 Bonus Game 3.85% **Crazy Time** 1 Benefit Game 1.92%

As the table reveals, the perk rounds are relatively unusual-- accounting for simply 17.3% of the wheel's sections integrated-- but they are where the video game's greatest wins live.

The Four Exciting Bonus Rounds

The main attraction of Crazy Time is its four bonus offer functions. Setting off one of these mini-games transitions the player from the primary studio into an interactive digital world.

1. Coin Flip

The easiest of the 4 bonus offers. A coin with a red side and a blue side is tossed automatically by a machine. Before the flip, multipliers are arbitrarily appointed to both sides of the coin. Whichever color lands face up wins

the gamer that designated multiplier.

2. Cash Hunt

This bonus offer game looks like a digital shooting gallery. A huge screen displays 105 random multipliers concealed behind numerous signs (like a cactus, a target, or a chef's hat). Players are offered a cannon crosshair to goal and fire at a symbol of their option before a countdown timer expires. When time goes out, Play Crazy Time Demo all signs expose their covert multipliers, and the gamer gathers the one they shot.

3. Pachinko

Inspired by the standard Japanese arcade game, this round includes a glowing Pachinko wall filled with physical pegs. The presenter drops a puck from the top of the board, and it bounces randomly down the pegs up until it lands at the bottom in among several multiplier slots.

- **Unique Feature:** If the puck lands in a "Double" slot, all multipliers at the bottom of the wall double, and the puck is dropped once again for an even larger reward.

4. Crazy Time

The ultimate bonus round. Gamers go through a red door into a surreal, huge virtual world featuring an enormous 64-segment wheel. Each player needs to select one of 3 flappers (Green, Blue, or Yellow). The presenter spins the wheel, and whichever segment the chosen flapper points to is the reward.

- **Unique Features:** Like Pachinko, this wheel includes "Double" and "Triple" segments. If a flapper arrive on among these, the multipliers on the wheel increase, and the wheel is re-spun, leading the way for the video game's optimum advertised payment of 160,000 x your bet.
