- **The Catch:** This method needs an unlimited bankroll and overlooks table limitations. A long losing streak can eliminate a player's whole stock in a matter of minutes.

2. The D'Alembert System

- **How it works:** A much more secure option to the Martingale. Gamers increase their bet by one system after a loss and reduce it by one unit after a win.
- **The Catch:** It reduces rapid losses, but it does not ensure long-term success against the house edge.

3. Flat Betting

- **How it works:** Wagering the exact same quantity on every single spin, no matter previous wins or losses.
- **The Catch:** It provides the best durability for a bankroll, permitting players to take pleasure in the game for a longer duration without devastating financial risk.
