The foundation inspection process at JLB Basement Waterproofing & Foundation Repair LLC begins with a simple description of the home's age and the specific issues being seen, taking about 30 seconds to submit. A foundation specialist typically calls back promptly to schedule the free, in person estimate, during which the local repair crew assesses the home directly. During the visit, the inspector examines cracks, settling patterns, basement moisture and other relevant factors before providing a detailed assessment and honest pricing for any recommended work.
