Function Standard Immobiliser Ghost 2 Immobiliser **Communication** Cuts direct power to the fuel pump, ignition, or starter motor. Communicates digitally via the automobile's CAN-bus network. **Tamper Resistance** Vulnerable; wires can be easily recognized and bridged. Highly resistant; no physical wires are cut to block engine functions. **Detection by Thieves** Quickly discovered utilizing basic diagnostic tools or visual assessment. Undetectable by diagnostics; no radio frequency emissions. **Disarm Method** Different crucial fob, RFID tag, or physical secret. A secret button sequence (PIN code) and/or safe smart device app. **Relay Theft Protection** Poor

(burglars frequently steal the secrets or clone the fobs). Excellent (even with your keys, the cars and truck can not begin without the PIN).

Advantages of Getting a Ghost 2 Installed
