2. Cash Hunt

- **The Setup:** A giant screen showing a shooting gallery filled with 108 random multipliers.
- **How it Works:** The multipliers are covered by various signs (such as a cactus, a target, or a constable's badge) and then shuffled. Players are offered a minimal countdown timer to goal and fire a cannon at a sign of their choice, revealing the multiplier concealed underneath it.

3. Pachinko

- **The Setup:** A huge Pachinko wall including a radiant pegboard and a series of drop zones at the bottom.
- **How it Works:** The host drops a puck from the top of the wall. As it bounces arbitrarily off the pegs, it eventually lands in one of the slots at the bottom, which includes a multiplier. If the puck arrive at a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped once again for massive possible wins.
