What is Big Bass Crash?

At its core, Big Bass Crash is a social multiplayer casino game. Unlike basic video slots including reels, paylines, and symbol mixes, crash video games run on a rising multiplier curve.

In Big Bass Crash, gamers join the familiar bearded fisherman on his boat as he casts his web into the water. As the boat progresses, a multiplier begins ticking up-- starting at 1.00 x and continuing to climb up up until it inevitably "crashes."

Key Game Features and Mechanics

Practical Play created Big Bass Crash to be available yet appealing, incorporating numerous functions that raise it above a standard generic crash video game.

1. The Dual Cash-Out System

- **50% Cash Out:** Players can cash out half of their bet while letting the other half ride for a possibly greater multiplier.
- **Automobile Cash-Out:** Users can set a fixed multiplier (e.g., 2.00 x or 5.00 x), and the video game will automatically squander their stake once that limit is reached.

Like many modern-day crash titles, Big Bass Crash features a live chat box and a real-time leaderboard revealing what other players around the world are wagering and winning.
