Gel-X extensions are a specialty service at A-List Nails & Spa Orlando, offering a lighter weight, more flexible alternative to traditional acrylic nail extensions. The salon's licensed technicians are trained in this specific application technique, delivering the clean, natural looking results Gel-X is known for among nail clients. This service pairs well with the **manicure near me** salon's broader focus on advanced technique, since proper Gel-X application requires genuine skill and attention to detail.
