Finished the test and wondering how to read it? Here is a simple breakdown of the usual score ranges.

- **100-98:** almost nothing ticked, common for younger takers.
- **97-77:** fairly innocent, with some dating experience.
- **76-45:** a broad middle band, very common for college students.
- **44-9:** plenty of experience.
- **8-0:** nearly every statement checked; rare.

Every statement is rice purity test online worth one point, so the test does not tell big experiences from small ones. For that reason two people with the same score can have very different stories.

Treat your score as a snapshot not a permanent label. It shifts as life goes on, and that is completely normal.
