What Makes Rummy Game Online So Special? Rummy is a group of matching-card games where the objective is to form valid sets and sequences from 13 dealt cards. In online rummy, the system automatically shuffles and deals cards using RNG (Random Number Generator) certified software, ensuring complete fairness. A standard game uses 2 decks including jokers for 2-6 players on one table. Winning Strategy for Rummy Game Online Pro players follow the 80-20 rule: focus on sequences first, then sets. Discard high-point cards early unless they are part of a near-complete sequence. Keep track of jokers - if you have two jokers, you can afford to take more risks with sequences. Bluffing by discarding cards near to what you need can mislead opponents online.
