2. **The Process:** They ask for individual details, a passport copy, and-- most importantly-- an in advance payment through wire transfer, cryptocurrency, or untraceable payment apps.
3. **The Disappearance:** Once the funds are transferred, the buyer is either obstructed, sent a poorly created PDF document, or informed that additional "charges" are needed to complete the process.

The Anatomy of the Scam

Claim Made by Scammers The Actual Reality **"Direct database entry"** IELTS ratings are managed through heavily encrypted, multi-layered institutional servers that can not be accessed by unapproved 3rd parties. **"Original watermarked certificates"** Modern confirmation uses digital websites. Even if a physical paper is created, universities and migration departments check the official database. **"100% money-back assurance"** Scammers operate anonymously. When the cash is sent out, victims have no legal recourse or method to track the perpetrators.
