- *Example:* If Player A wins with **Rock**, Player B (the loser) is not likely to toss Rock (duplicating) or Paper (which beats Rock). For That Reason, Player B is statistically most likely to throw **Scissors** in the next round. To profit from this, Player An ought to toss **Rock** again.

3. Mental Warfare (Mind Games)

- **Verbal Priming:** Mentioning a shape out loud typically automatically drives the challenger to play something else-- or forces them to overthink and play the exact thing you pointed out.
- **Tells:** Just like in poker, RPS gamers often display micro-expressions, muscle tensions in the forearm, or doubt that gives away their upcoming throw.
